INTERNSHIP EXPERIENCES

Internship in Agentic AI - AlgoTutor Link **Jun 2026**

Developed PatentScout AI, a multi-agent platform that analyzes research papers and patent landscapes to identify technology gaps and innovation opportunities. Leveraged RAG, LLMs, and patent intelligence to automate the end-to-end research-to-innovation pipeline.

Internship in Data Analytics, AI and Web Development in Django - NIELIT Calicut Link **Dec 2025**

Developed ChurnGuard AI, an AI-powered platform to predict customer churn using machine learning and customer behavior analytics. Built interactive dashboards and predictive analytics tools to deliver actionable insights and support customer retention strategies.

SKILLS ACQUIRED:

Languages : Python, SQL
AI/GenAI : LLMs, RAG, Multi-Agent AI, MCP, NLP, Prompt Engineering, Semantic Search, Deep Learning, Computer Vision
Tools & Frameworks : LangChain, Vector Databases, Django, FastAPI, React.js, YOLO, Hugging Face

PROJECTS

SyncFlow - Intelligent Patient Journey and Queue Management System GitHub **May 2026**

Tech Stack: React.js, Spring Boot, PostgreSQL, Tailwind CSS, REST APIs
Developed a real-time hospital queue management and patient procedure tracking system with role-based dashboards. Implemented intelligent patient routing, wait-time prediction and emergency priority handling to optimize hospital workflows.

PharmaFind - AI-Based Medicine Availability and Navigation System GitHub **Apr 2026**

Tech Stack: React.js, Python (FastAPI), SQLite, EasyOCR, OpenCV, Google Maps API, Tailwind CSS
Developed an AI-powered platform that extracts medicine names from prescriptions and identifies nearby pharmacies with medicine availability. Implemented location-based pharmacy recommendations and Google Maps navigation to improve medicine accessibility.

LinguaTutor AI – AI-Powered Multilingual Learning Platform GitHub **Feb 2026**

Tech Stack: React.js, Node.js, Express.js, Tailwind CSS, Google Gemini AI, Socket.IO, Web Audio API.
Developed an AI-powered multilingual learning platform integrating real-time AI tutoring, voice interactions, adaptive quizzes, and collaborative learning. Built analytics dashboards and recommendation systems to enhance learning outcomes.
